See the next page for a description of each button on the Toolkit Toolbar.

Getting Started in ArcGIS

ArcGIS Tools	Icon	Purpose
Zoom to Plan		<ul style="list-style-type: none"> • Zooms to the extent of the customer's planned land units.
Select a Plan (the Cyber Farmer)		<ul style="list-style-type: none"> • Adds the customer's plan layers, including planned land units and practice layers, to the view.
Import Legacy Shapefiles		<ul style="list-style-type: none"> • Allows users to import existing land unit shapefiles into the Toolkit 2004 geodatabase.
Total Acres		<ul style="list-style-type: none"> • Calculates the acres of one or more polygons such as fields, ponds or easements. • Provides the total length of the perimeters. • Calculates lengths for line features such as fence or pipelines and give a total count for the number of features selected for any layer type (point, line or polygon).
Map Products		<ul style="list-style-type: none"> • Creates a map with a heading, a legend, a scale bar, and a north arrow.
Map Labels		<ul style="list-style-type: none"> • Allows user to create labels for all vector layers.
Soils Map/Inventory		<ul style="list-style-type: none"> • Creates a soils map for a customer's land units and provides a soils inventory report for the selected area.
Buffer		<ul style="list-style-type: none"> • Draws a polygon of a specified width either inside or outside of an area or around a point or line. • Allows buffers to be created on one side of a line.
Attribute Tool		<ul style="list-style-type: none"> • Inputs information about various layers into the corresponding table including Land Units, Practice Layers and Resource Inventory layers.
New Toolkit Layer		<ul style="list-style-type: none"> • Creates new layers including Planned Land Units, Practice and Resource Inventory Layers. • Builds new layers and adds them to the view.
Toolkit Digitizer		<ul style="list-style-type: none"> • Allows a user to add or edit features for any type of layer.
Digitizing Off		<ul style="list-style-type: none"> • Indicates that the digitizing (i.e., Edit Mode) is off.
Digitizing On		<ul style="list-style-type: none"> • Indicates that the digitizing is in Edit Mode.
