RECEIVED JAN 16 2009

the scandal plagued us dept agriculture is full of corruption. this is an example. this does nothing generally for the people of the united states. this is a single interest proposal to turn over tax dollars to usda, which is as corrupt as the day is long. this agency is power mad and power hungry, they keep glomming all the tax dollars although their constituency is the most wealthy of all industries in the united states. this program does not have to happen. it is clear it is time to give taxpayers a break, not farmers.

Thank you for your e-mail of January 16, 2009, in regard to RIN 0578-AA46, the Farm and Ranch Lands Protection Program Interim Final Rule, as published in the Federal Register. The conservation provisions of the Food, Conservation and Energy Act of 2008 (2008 Farm Bill) and the Administrative Procedures Act offer the public the opportunity to submit official comments on rule changes published in the Federal Register during the official public comment period indicated with each published rule change.

Regulatory changes generally are being published as interim final rules, enabling full implementation of the programs while public comment is assessed. NRCS acknowledges your letter of recommendation. Your comments will be analyzed and given full consideration in the process of moving to final program rules. The preamble for final rules will include our analysis of public comments and their disposition with regard to the final rules.

Again, thank you for your official comment. If we can be of further assistance, please do not hesitate to contact us.

Sincerely,

/s/

THOMAS W. CHRISTENSEN  
Deputy Chief for Programs  
USDA/NRCS
