Wisconsin continues to improve soil data and products to meet the current and emerging resource concerns.

**Soil Scientist Service**

23,510+ people served

**Word Cloud**

Provide training to NRCS and partners

Within NRCS, Technical Soil Services provided by the soil scientists span and assist the agency’s operations from national headquarters to the county-based conservation field office. A key role of the soil scientist is to provide tailored, accurate information for site-specific planning.

**Wetland Determinations**

Wisconsin had the 4th highest workload in the Nation related to conservation compliance

At 131% of last year's numbers!

2014: 2,220

2015: 2,900
