October 23, 2013

To any licensed Inspection Mechanic and licensed Inspection Station,

The purpose of this letter is to authorize you to perform a safety inspection on this or any government owned vehicle not bearing a license plate, as they are exempt from registration in the State of Maine. Please use their US Government registration sheet as proof of proper registration and then proceed with a standard inspection for the class vehicle before you. These government owned vehicles are not required to display a registration plate or other decal and proof of compliance shall be established through the registration form provided to you by the operator. Please print, "GOVT," on the back of the sticker and the stub sheet where the plate number is usually written. The rest of the inspection process shall remain the same.

Sincerely,

A handwritten signature in cursive script that reads "Sgt. Bruce Scott".

Sgt. Bruce G. Scott
